

# SUSAN PANT

## SENIOR SOFTWARE ENGINEER

 iamsusanpant@gmail.com

 www.susanpant.com.np

 +977 9846514741

 Bafal-4, Kathamndu, Nepal

Highly skilled Full-Stack Developer with a strong track record of designing and building scalable, high-performance applications. Experienced in solving complex technical challenges and delivering innovative solutions. I also excel at leading teams, managing Agile sprints, and mentoring developers to drive project success.

### SKILLS

---

- **Languages:** C#, Groovy, JS, SQL, Java, Python
- **Frameworks & Libraries:** .NET, ASP.NET Core, Blazor, Grails, React, AngularJs, Entity Framework Core
- **Version Control:** Git
- **Testing:** xUnit, NUnit
- **Cloud Platforms:** AWS, Azure
- **Other:** Agile Project Management (JIRA, Sprint Planning), Team Leadership & Mentorship, Technical Solution Design & Architecture, Cross-Functional Team Collaboration, Stakeholder Communication & Requirement Gathering

### PROFESSIONAL EXPERIENCE

---

#### Audit Partnership

May 2025 - Oct 2025

##### Senior Software Engineer

- Developed and maintained secure, scalable web applications using .NET, with features tailored for internal auditors and clients.
- Designed and integrated RESTful APIs, optimized data handling with Entity Framework Core and SQL, and enhanced system performance.
- Contributed to new system architecture for improved scalability and maintainability, while resolving bugs and delivering workflow-driven features.

#### Cedar Gate Technologies

April 2018 - May 2025

##### Senior Software Engineer

- Designed, developed, and maintained web applications using ASP.NET Core, Blazor, Grails and multiple programming languages, focusing on the creation of custom RESTful APIs.
- Utilized SQL and Entity Framework Core for efficient data modeling, performance optimization, and seamless database interactions.
- Demonstrated strong expertise in architecting scalable and maintainable software solutions aligned with business requirements.
- Ensured high code quality through comprehensive unit testing using xUnit and NUnit, promoting reliability and maintainability.
- Leveraged Git for version control, including repository management, branching strategies, and conflict resolution to enable effective team collaboration.
- Implemented cloud-based solutions using various AWS services such as S3, SQS, Kinesis, and EventBridge, ensuring scalability and fault tolerance.
- Managed tasks and project workflows using JIRA, including sprint planning, issue tracking, and team coordination for timely project delivery.
- Collaborated closely with stakeholders to gather requirements and translate them into clear, actionable technical solutions.
- Provided leadership and mentorship to development teams, fostering growth and ensuring alignment with project goals and best practices.

### EDUCATION

---

Bachelors in Electronics And Communication Engineering, WRC, IOE, NEPAL

2011 - 2015

### OTHER

---

**Languages:** Proficiency in Nepali, English, Hindi
